We are guided and inspired by our Vision...

From steel revolution to product evolution

We had began by making regular Table Legs from only tubes within very limited models years ago and developed our work and models each year and quickly became one of the best manufacturer in Turkey. From the outset , ERA was an export-oriented company and that caused to large orders starting from local market and than expanded all over the world . Along with developments and new trends in Entertainment , Home , Office and Outdoor Furnitures , ERA kept creating new models based on worldwide trends and requests received.

Innovation and diversification

After years , we began to receive customized demands for all indoor decorations of restaurants , homes , offices and some other similar projects. These demands led to diversify our product range and to systematically develop new designs. During this period, sales organizations were established all over Turkey and in some countries in Europe , Usa , North Africa , Middle East and India.

Innovation and your life

In 2016 , we re-affirmed our long - standing commitment to improving people's lives through meaningful innovation with the launch of our new Decorative Table Legs models for Homes , Offices , Restaurants , Hotels.... ERA delivers innovation that matters to you . Our " innovation and your life " brand line is the simplest distillation of our brand promise. It encapsulates the magic of innovation that makes a meaningful difference to people's lives.

Our strategic focus - driving value creation

Today, ERA is a leading " Leg " manufacturer company focused on improving people's indoor and outdoor life and enabling better outcomes across the decoration continuum – thereby creating value for its customers.

Businesses bringing innovations to market

With our focus on delivering meaningful innovations , we serve both professional and consumer markets in the areas of Furniture Manufacturers , Architects , Wholesalers , Project Companies , Hotels , Restaurants , Coffee Shops , Malls ... We are a leader in manufacturing all kind of customized designs to be made of steel and wood.

Value-adding relationships with supply partners

We also work closely together with our raw material suppliers, supporting them in their efforts to improve their operational and sustainability performance. We also involve them at an early stage of the design process , to help us innovate quickly and fulfill our customers' expectations.

Are you an innovative company interested in collaborating with ERA ?

This new CATALOGUE for 2019 presents and offers you new products for your further reference both in resale and / or in using them in your furnitures . Please check our all models as follows and bring them to the attention of your Company .

Let's enhance our growth prospects by innovating together!
